Religion: Muslim 96.4%

Pakistan is a central
player in global
trafficking in slavery
and drugs, entrapping
young children and
women for hard, dan-
gerous labour and the
sex trade. Jesus is their
only hope.

Islam has severely damaged society, trampling the rights of women and minorities, and bringing fear and violence. Islamic schools poison students with hatred for the West and Christians, and extol a willingness to die for Islam. Pray that this ideology might be so discredited that its influence may be broken.

Pray

- Pray for OM workers: for daily determination, safety amid opposition and for churches to share this mission.

Serve

join.ca@om.org

- You could serve this ministry remotely in a teaching or admin role (e.g. finance or IT), releasing Pakistanis to engage in evangelism, discipleship training and more.

Give

www.om.org | development.ca@om.org

- Selling Christian books in markets is becoming more difficult, but distributing SD cards with films, books, and Bibles in different languages is effective—and safer since this media can be read discretely on cell phones and passed on. Your gift to support this media will introduce Jesus to thousands.
