

Operation Mobilisation is an international, interfaith, aid and mission organisation. Around 5'000 co-workers in more than 110 countries and on the ocean-going ship - Logos Hope. We take part in a global community of Jesus followers, united to share God's love.

OM International is looking for people for IT department

The pandemic has caused many of us to rethink what is possible. We now know that we can do our jobs from home and not just in an office. Our work routinely can span cities and countries.

Have you ever thought about having an IT job from your home and touching the world?

We have an urgent need for professionally skilled people who are passionate about IT and seeing people become followers of Jesus. In this key role, you will help OM around the world impact the kingdom of God by supporting and developing OM's IT systems. Join us and use your skills for God's glory.

- IT Infrastructure
- Central IT Helpdesk
- DevOps
- SIEM
- DBA
- Microsoft Identity Management (MIM)
- Software Developer
- Looking for staff where ever but a priority is on Asia or Americas

If you think this might be you, then be in touch with itjobs@om.org.

These are volunteer or non-salaried/support-raising positions.

Our IT Infrastructure team at International worked very hard during the start of the pandemic to move "online". They keep our IT systems running and secure. Due to staff losses, the team is shrinking to only 3 staff by Christmas. We are in urgent need to add staff to the team. Please review the recently posted adverts.
